

CVSTOS

THE TIME KEEPER

PRESS RELEASE

April 2011

Cvstos 3rd pole position at Monaco FIA Grandprix 2011

Cvstos will take part for the third consecutive year in the 69th Monaco Grand Prix, a major event of the Formula 1 season, which will take place from the 26th to the 29th of May 2011.

It is widely considered to be one of the most important and prestigious automobile races in the world. This mythical track is the slowest and toughest of the World Championship Formula 1.

To win is the dream of every pilot, but it requires an outstanding dexterity and self-control, because the slightest error in the streets of the principality is fatal. In a beautiful setting overlooking the pole position, Cvstos will host its VIP clients during two days to share special and unforgettable moments and will display its latest watches, the CHALLENGE TWIN-TIME for GRANDPRIX.
