

CVSTOS at Baselworld 2016

For its first Baselworld participation, CVSTOS was pleased to welcome its partners and friends at a two-storey booth in Hall 1.1. In addition to the sixty models exhibited for visitors, the brand was able to count on the presence of two of its ambassadors: Philippe Coupérie Eiffel, descendant of the engineer of the same name and Christian Nguyen, founder of Inkvaders tattoo studio, for the promotion of the new developed products within its chronograph range namely the Chrono II Inkvaders and Chrono II Eiffel. New materials were also honored with Carbon Honolulu Orange, a mixture of forged carbon and colored fiber glass giving it original and unique result to each piece.

As for the women's collection, it is expanded with the new

Re-Belle Sakura model dressed in Japanese cherry flowers and the new Re-Belle Jet Liner adjusted to the size of the delicate feminine wrist.

In addition to the exhibition and to celebrate this first participation, a dinner was held in the exceptional setting of the restaurant «Safran Zunft» located in a historic building, built for the first time in 1462 and former spice warehouse. It is within this exceptional setting that retailers, customers and brand friends were able to gather for an unforgettable evening.

After this successful week, CVSTOS will be present at the next edition to be held from March 23rd to 30th 2017 and look forward to meet you there.
